

- It is advisable that parishioners suffering from any co-morbidities or underlying illnesses, stay at home.
- If for any reason you have experienced flu-like symptoms during the week, or on that day, it is better to stay home.
- Parishioners who have decided not to return to the Church Building for worship as yet, and have no access to social media, may contact the parish office.

**As we gradually proceed to worship together,
we will continue to communicate as best we can.**

**Do not hesitate to make contact with the parish office
if there is anything that requires our attention.**

This is all for now.

With love,

Selwyn
